

SIWATEC, a.s.

COMPANY OUTLINE

The image displays a comprehensive collection of SIWATEC water technology products. At the top left, several large, silver, propeller-style pumps are shown. In the center, a large industrial pump with a green motor and a long horizontal shaft is featured. To the right, three vertical stainless steel pumps are displayed, labeled 'UP', 'ASR', and 'ASR'. Below these, various smaller pumps and motors are shown, including a green motor, a blue motor, and a red motor. A red spherical tank labeled 'HYDROFRESH' is also visible. The background shows the SIWATEC GROUP building with the company logo and name. The bottom of the image features the SIWATEC logo and the text 'Water Technology Since 1991'.

About our company

SIWATEC, a.s. (former name Sigma Trading, Sigtrading a.s.) was established in 1991. From the very beginning the activity of our company was aimed especially at assortment of pumps and valves. According to this specialisation we gradually fixed our attention on selling activity as well as the manufacturing of valves.

Original headquarters in historical centre of Olomouc city

At present our company belongs to one of the most important sellers of pumps and valves (butterfly and non-return valves, ball valves) , both for general use and industrial applications. We also aim at irrigating and drainage systems.

In order to be able to satisfy growing demand we invest within last 5 years in construction of the new manufacturing centres, where we intend to increase even more the quality of our products together with work productivity. For this we are going to introduce the latest technology fully respecting the environment at the same time.

Our long-term strategy objective is to make very effort in increasing quality of our products at reasonable price. We especially pay our attention to training our employees and we encourage them to use all their skills and knowledge. The certificate ISO 9002, which we were granted in June 2000, is one of the results.

The new industrial area in Olomouc-Chomoutov

Our daughter companies are as follows:

- **ABO valve Ltd.** (former name Armatury Buracco Olomouc Ltd.), which was set up in 1995 in cooperation with our French partner Buracco S.A.. It is determined for licence manufacturing of butterfly valves, non return valves, check valves
- **Aqua Industrial Ltd.** set up in 1998, is engaged in producing irrigating plants, designing and installation of complete pumping stations and filter equipment, installation of snowing systems (artificial snow), service and maintenance of pumps

The new industrial hall in Olomouc

Our main longterm partners are the following pump producers:

PEDROLLO (Italy) – producer of centrifugal pumps, booster sets, pressure boosting units and accessories.

NETZSCH (Germany) – producer of positive cavity pumps, rotary lobe pumps, screw pumps and macerators.

FAGGIOLATI PUMPS (Italy) – producer of submersible slurry a sewage pumps, drainage pumps, aerators and mixers.

ITC (Spain) – producer of dosing pumps.

In year 2003 we have decided to change the name of our company. SIWATEC, the new corporate entity name, can be interpreted as an abbreviation of the following words: **SIGMA**, **WATER**, **TECHNOLOGY**. The new corporate entity name does not only include a link to the company history, but it also better expresses the current company activity.

Our company is on the prestigious list of „100 CZECH TOP companies“ and Mr. Študent, as major shareholder received certificate „PODNIKATEL roku 2006“ (BUSINESSMAN of the year 2006).

The economic situation of our company has in the long-term had a favourably and increasing tendency. Nowadays SIWATEC, a.s. is a thriving company which preserves stability.
